DAILY REPAIR PROCEDURE

COMMERCIAL ROOF REPAIRS

Proper roof repairs will extend the service life of your roof, putting off a more extensive repair or even a reroof.

Maintaining your commercial roofing system with proper roof repairs is more cost-effective than a full tear-off and replacement. Water can cause unforeseen and expensive damage.

WNC Roofing performs Safe, Smart, and Professional maintenance and repair work that will prevent future damage and save you money in the long run.

WHAT TO EXPECT

WNC Roofing will listen to your needs and strive to provide the best and proven solutions for you and your facility. From your very first contact with our professionals, you can expect quality customer & roofing service:

- Our team will reach out to you within 24 hours of contacting our office and schedule a firm date and time to complete your roofing repair*
- Each repair is identified with Tech's initials, date, and company name for future reference.
- Upon completion, you will receive electronically before-and-after photos, including a detailed invoice of work completed, time spent, and materials used.

**All appointments are weather dependent. Repairs are unable to be made during inclement weather such as rain and snow. In the event of poor weather, the office will be in touch with you to reschedule.*

REPAIR COST:

WNC Roofing's cost includes two skilled Commercial Roof Technicians, equipment, materials, and all insurances needed to complete the repair.

We charge \$75 per man-hour plus material. The average cost is \$1,450 to \$1,950* per day.

**NC Sales Tax may apply*

We will address the most common points of roof failure, which are:

- Penetrations
- Flashings
- Transitions & Terminations
- Tie-ins
- Drains and gutters

If the requested repair is completed before the full work day, a complete roof inspection and additional roof repairs and maintenance will be performed for the remainder of the day.

Thank you for choosing us to be your Commercial Roof Resource.
